

Media Consultation Request

Email: media@seccsda.org

Churches can request consultation from the Conference with support in youth media. Consultation requests include a unique strategic media plan based on the church's youth ministry needs. Additionally, we are happy to support churches implementing one or more of our five Core Values: Empowerment, Innovation, Relevancy, Diversity, and Jesus in their children's, youth, and young adult ministries through creative ministry projects. To request funding and learn more about our Core Values, visit seccyouth.com/Our-Mission/#CoreValues

A request for media consultation from SECC Youth Media Ministries may include a strategic media plan, equipment recommendations, and further resources to help launch or support your youth media project or ministry, but does not include installation or work from a Conference employee.

Church Name: _____
